**Contact us  
today for  
Details!**

BPI is looking for hard-working, career-minded, college graduates to participate in this program—people that want to grow with the company and be a part of what has made BPI successful for almost three decades.

If you have the drive and desire to be a part of this success—and you are willing to work hard and study hard—then consider a career with BPI.

The purpose of the program is to hire and train our future production and quality assurance supervisors. BPI offers a wide range of opportunity and a culture of promoting within to provide excellent opportunities to grow your career within our company.

To be considered for the program a candidate must:

- Have a degree from an accredited university
- Degrees in Food Science a plus
- Ability to relocate
- Leadership experiences a plus

About the program:

- Supervisor trainees are assigned to spend 12 months at our state of the art South Sioux City, Nebraska facility training in all aspects of plant and food quality operations
- Supervisor trainees will receive additional training in areas such as Safety, Maintenance, Control Systems and Warehouse management just to name a few
- Supervisor trainees will be enrolled in BPI's Management training courses and receive hands on operations management training to develop a better understanding of our operations and processes, how to manage employees in a fast paced environment through effective leadership skills, food safety and governmental regulations, and management of productivity and quality assurance standards
- Upon completion of the program supervisor trainees will work closely with their immediate supervisor and the Human Resource department for full-time placement at one of our facilities located in Amarillo TX, Garden City KS, South Sioux City NE and Waterloo IA
- Supervisor trainees must be flexible in relocation upon completion of the program. BPI will consider your location preferences and make every effort to place you in your desired location.

How to get started:

At BPI we want to hear about the skills and talents that make you successful. As part of our application process we ask that you set up a profile.

Here's how:
